Thank you for your submission of BYB 2.

–Please take a screenshot of this completed message.

–If you forgot to take screenshots of the form with your data in it, please type your data out to submit it.

If you are ready to apply for jobs:

In this task we would like you to think about the sort of roles you might like to apply for and the sort of companies you might want to work for, as well as actually submit applications. Find 5 junior tech roles currently being advertised, ensuring you consider large and small companies as well as tech startups. For each of these, identify the recruiting/hiring managers (possibly the Talent or HR people at each company). Capture the details of each of the 5 roles and contacts in this form. If any of your URLs are greater than 255 characters, shorten them by using bitly.com and paste the shortened version into the form.

If you're not ready to apply for jobs yet or may even be currently employed and not looking for a new role right now:

We still require you to identify relevant contacts and get into practice should you eventually look for a new role, but are waiving the requirement to actually apply at this point. This means you DO fill in the form, but you DON'T have to actually submit the applications to the employers, and we will NOT reach out to these employers on your behalf. PLEASE NOTE, however, that from the next Build Your Brand task (BYB3) you will be required to actually submit applications to jobs you identify.
