Education

HyperionDev
Bootcamp, Data Science
Dec 2022 - Mar 2023
I am taking the Data Science Bootcamp, where I will learn to utilise Python for data analysis, visualisation, and machine learning. By the end I will be able to utilise SQL/NoSQL - Tableau - Matpilotlab - NumPy + Pandas. In terms of machine learning, I will be able to do analyses such as Supervised and Unsupervised ML, Simple and Multiple Linear Regression, Logistic Regression, Decision Trees, Clustering, and PCA.

SOAS University of London
BSc International Management (Japan) (year abroad), International Management
2018 - 2022

Dartford Grammar School
International Baccalaureate, Psychology HL, English HL, Biology HL, Maths Studies SL, Ab initio Japanese SL, Economics SL
2015 - 2018

Skills

PCA • Cluster Analysis • Decision Trees • Logistic Regression • Linear Regression • Supervised Learning • Machine Learning • Pandas (Software) • NumPy • Matplotlib
